Thank Yous

We thank all the faculty and staff of the Music and Dance department at SDSU for being a constant source of support for the members of SAI and for letting us support them in return. We also thank the alumnae for being there for us, as a model for how our chapter still needs to grow, for being a source of strength, and for being an amazing group of women to whom we can look up to and admire for their wealth of knowledge about our cherished sisterhood.

Yours sincerely,

Kerstin Weinstein
